

Position Title: Intermediate to Senior Terrestrial Ecologist Date Posted: February 27, 2012

Location: Bracebridge, ON

Deadline: March 31, 2012

Job Description:

Michalski Nielsen Associates Limited has an immediate opening for an experienced Terrestrial Ecologist/Botanist in our Bracebridge, Ontario office. We are a small, specialized firm, providing environmental consulting services for municipalities and private sector clients throughout Central and Southern Ontario. Our work often includes assessing the environmental impacts of land use change. The successful candidate will conduct field studies, prepare environmental impact assessments, identify mitigation and compensation measures, write reports, and manage projects. We offer an opportunity to pursue a career in beautiful Muskoka, a flexible work environment, competitive benefits, and excellent earning potential for the right candidate.

Qualifications:

The successful candidate will work closely with other staff members to organize and carry-out multi-disciplinary projects. Qualifications for the position include:

- M.Sc. or B.Sc. plus equivalent experience in Botany and Terrestrial Ecology
- A minimum five years field experience in undertaking natural features inventories, including vegetation community descriptions, breeding bird surveys and species-at-risk assessments.
- Ecological Land Classification Certification is required.
- Ontario Wetland Evaluation an asset.
- Applied experience in identification of grasses/sedges, wildflowers, shrubs and trees of Ontario.
- Familiarity with land use planning process in Ontario.
- Excellent communication, writing and computer skills, including proficiency with Geographic Information System software.
- Consulting experience an asset.
